Today has passed our colleague Rodrigo Erazo, known by many only by his research and by others for his people skills. Rodrigo Erazo was a professional early influenced by structuralist Marxism, and son of a generation that put effort in testing unofficial ideas and therefore not always recognized.

Peace in his grave.

His memorial service is held on Monday May 2, 2011, at Girón funeral house (Quito), from 10 am

Sincerely,

College of Professional Archaeologists of Ecuador
