The National Academies Press issued a press release indicating that all their books (PDF version) will be available for free beginning June 2, 2011. Here is the press release: http://www8.nationalacademies.org/onpinews/newsitem.aspx?RecordID=06022011

You need to register (for free) at http://books.nap.edu and can then download whatever you want. There is a search engine. Be aware that files are large (above 50 MB). One book of likely interest to this list is: *Lost Crops of the Incas* (1989), at http://books.nap.edu/catalog.php?record_id=1398 (83.5MB).
